

A: The drawings and details on sheet A503 identify a prefinished aluminum railing system, further information on acceptable manufacturers and basis of design are included in Specification 06 15 33, "Composite Decking and Aluminum Railing".

### **PRIOR APPROVALS**

Listed below are manufacturers who are recognized as capable of producing products or equipment equal to those specified. Products or equipment will be considered acceptable, providing the equipment meets, or exceeds the specification requirements, fits the available space, and has the capacity and performance requirements. Fixtures/equipment shall also be similar in appearance, construction, and performance (as published by an independent laboratory report).

The listed (prior-approved) equipment is not given with respect to any specific model, series, catalog number, etc. Suppliers are cautioned that before their equipment is approved, it will be incumbent upon them to demonstrate to the architect or engineer, that the product or equipment is (in fact) equal to the requirements specified and conforms fully to all specification requirements. For light fixtures, point-to-point lighting calculations and/or fixture samples may be requested during the shop drawing review to verify compliance with specifications.

### **ROOM IDENTIFICATION SIGNAGE**

Manufacturer – 290 Sign Systems; Product – Plaque 25 / Klik
